APPENDIX I

Fifth All-India Educational Survey

VILLAGE INFORMATION FORM

Instructions for Filling the Form

The present educational survey, fifth in the series, is being conducted throughout the country. The Village Information Form seeks information relating to population, schooling and other educational facilities in the village.

Village Means 'the Revenue Village'

Please read carefully the following instructions before filling the form.

if a habitation has three schools; two of them having Classes I to V and the third one has Classes I to X, then information against the habitation may be entered as follows:

Col. 4	Col. 5	Col. 6
I	V	2
I	X	1

1. In case the village has a recognized school in it, the form may be filled by the headmaster of the school in consultation with the village officer /patwari. If the village has more than one school, the form may be filled by the headmaster of the school which has the highest school class. However, if the village has no school in it, the form may be filled by the headmaster of the school located in the nearest village, in consultation with the village officer/patwari concerned.
2. (i) This survey covers *recognized schools only*.
(ii) Recognized schools include government, municipal, panchayat samiti schools and private schools that have been recognized by the competent authority.
3. Information in respect of all the items has to be given as on 30-9-1986.
4. Items 1 to 6 have been filled already.
5. Item 8: Check if the village had an abnormal increase or decrease in population in relation to the figures given in the 1981 census. If so, give reasons for the same.
6. Item 10: Information has to be provided separately for each habitation in the village.
 - (i) A *habitation* is a distinct cluster of houses existing in a compact and contiguous manner with a local name. A village may have one or more than one habitation, except when it is a deserted/bechirag one.
 - (ii) Any habitation with population less than 10 in hilly/desert/sparsely populated areas or with population less than 25 in plain areas may not be given a separate status of a 'habitation' and its population may be included in the nearest habitation of the same village. But this condition will not apply to a village with one habitation only.
 - (iii) In columns 4 to 6, if a habitation has more than one school, provide information schools-wise according to classes taught. For example,
 - (iv) In columns 7 to 14, provide information only when there is no school located within the habitation, concerned at each stage of education. For example, in a habitation, there is a primary school only, the columns 7 to 8 will be left blank. However, since the habitation has no schooling facility at upper primary (middle), secondary and higher secondary stages, columns 9 to 14 have to be filled in order to know where and at what distance such facilities exist.
 - (v) The distance between a school and habitation is the convenient walking distance between the school and the central point of the habitation.
7. Item 11 : (i) In this item, provide information pertaining to centres for non-formal education run by Government/Local bodies, as well as by voluntary agencies/industries, which cater to children of school-going age only. Do not include adult education/functional literacy centres, etc. Also ensure that no child enrolled in the formal school system is included in this item so that duplication of enrolment in these two systems is avoided.
 - (ii) A centre for non-formal education meant for both primary and upper primary levels is to be counted at both the levels.
8. Item 12 : In this item, provide information pertaining to adult education/functional literacy centres run by Government/Local bodies as well as by voluntary agencies/industries. Please note that non-formal education centres (included in item 11) should not be included in this item.
9. Item 13 : A school catering to children with different disabilities is to be counted as a separate institution for each one of the disabilities.
10. Item 14 : In this item, provide information about all the villages, touching the boundary of this village.
11. Item 15 : In this item, all recognized and unrecognized institutions catering to pre-primary education are to be included.
